Modern Methods of Construction

Kingspan Global

Kingspan Insulated Roof, Wall and Facade systems, part of the Kingspan Group plc, has established a leading global position for design solutions, manufacturing and supply of factory pre-engineered insulated roof, wall and facade systems across all sectors of the international construction industry.

An Innovative Approach to Construction

From the start Kingspan has been the driving force behind the off-site building revolution, establishing itself as the leading manufacturer and supplier of insulated roof and wall systems.

Today the company is very much at the forefront in the application of the latest Modern Methods of Construction building techniques which are giving architects new found flexibility in projects across a broad range of sectors; Commercial, Office, Retail, Education, Healthcare, Leisure, Residential, Controlled Environments, Technology, Industrial, Manufacturing & Distribution.

This brochure demonstrates the design flexibility and product application across a wide range of building types.
